IMPORTANT INFORMATION				

- **Coverage applies to medically necessary services only**
- This is a brief summary of the cost of member plan benefits after State Covered Connecticut Program subsidies are applied. ConnectiCare administers payments under the program on behalf of the State. They are not part of the coverage under the policy. Refer to your ConnectiCare Insurance Company, Inc. policy for complete details on benefits, conditions, limitations and exclusions. All benefits described are per member per calendar year. Member ID cards will indicate that providers should not collect copayments since they will be covered under the Covered Connecticut Program.
- 90-day supply of maintenance medications must be filled through Express Scripts home delivery or at either a participating CVS or Walgreens pharmacy. Each member has a choice of the pharmacy used.
- Ovarian cancer screening and monitoring services coverage and cost share details are available in your policy.
- Mammogram screenings, breast ultrasounds, and breast MRIs – Please refer to the policy for details.
- Insulin and noninsulin drugs are covered up to a cost share maximum of \$25 for each 30-day supply.
- Diabetes Devices and Diabetic Ketoacidosis Devices are covered up to a cost share maximum of \$100 per 30-day supply.
- Please refer to your policy for additional cost share maximums regarding diabetic services. Some diabetic services fall under preventive care and cost share may be waived.
- An **ambulatory surgery center** is a facility that exclusively provides outpatient surgical services to patients who do not require hospitalization and whose expected stay in the center does not exceed 24 hours. Ambulatory surgery centers are not owned by a hospital.

- An **outpatient hospital facility** offers surgical procedures and related care that, in the opinion of the attending physician, can be safely performed without requiring overnight inpatient hospital care. Outpatient hospital facilities are owned by a hospital or hospital system.
- To learn more about your **Teladoc**® benefits contact **Teladoc**® at www.teladoc.com/connecticare or call 1-800-835-2362 (TTY: 711).
- If you have questions regarding your plan, visit our website at www.connecticare.com or call us at (860) 674-5757 or 1-800-251-7722.
- Out-of-Network reimbursement is based on the maximum allowable amount. Members are responsible to pay any charges in excess of this amount. Please refer to your ConnectiCare Insurance Company, Inc. policy for more information.
- Under this program covered prescription drugs and supplies are put into categories (i.e. tiers) to designate how they are to be covered and the member's cost-share. The placement of a drug or supply into one of the tiers is determined by the ConnectiCare Pharmacy Services Department and approved by the ConnectiCare Pharmacy & Therapeutics Committee based on the drugs or supplies clinical effectiveness and cost, not on whether it is a generic drug or supply or brand name drug or supply.
- Amounts paid by members because they must pay a price difference for a brand name drug do not count towards meeting any deductible, coinsurance, copayment, coinsurance or cost share maximum.
- Most specialty drugs are dispensed through specialty pharmacies by mail, up to 30-day supply. Specialty Pharmacies have the same member cost share as all other participating pharmacies and are not part of the ConnectiCare's Voluntary Mail Order program.
- Many services require that you obtain our Pre-Certification or Pre-Authorization prior to obtaining care. Please refer to the "*Pre-Authorization and Pre-Certification Addendum*" in your policy for a detailed list of services or call member service at 1-800-251-7722. Without pre-authorization for services prescribed or rendered by Non-Participating providers, you may be responsible for the total cost of the service or benefits may be reduced by the lesser of \$500 or 50%.
- For mental health, alcohol and substance abuse services call 1-888-946-4658 to obtain Pre-Authorization.
- In-network preventive and wellness services as defined by the United States Preventive Service Task Force (USPSTF), including immunizations recommended by the Advisory Committee on Immunizations Practices at the Centers for Disease Control (CDC), and preventive care and screenings supported by the Health Resources and Services Administration (HRSA) are exempt for from all cost shares under the Patient Protection and Affordable Care Act (PPACA). Visit our website at www.connecticare.com to view a list of preventive and wellness services.
